CHAIRMAN'S MESSAGE

We wholeheartedly embrace and uphold human values and professional principles, while actively expanding our operational capabilities. Our goal is to ensure a consistently positive experience for our esteemed customers, principals, suppliers, and employees.

As a business group, we maintain persevering dedication to corporate and social responsibility, diligently addressing economic, environmental, and social factors. This approach, characterized by respect, rigor, and active involvement, cultivates greater responsibility and acceptance. Our ultimate vision is to become the premier organization in our chosen field of operation.

Dr. Tarek Nasser Al Akeel
Chairman / C.E.O

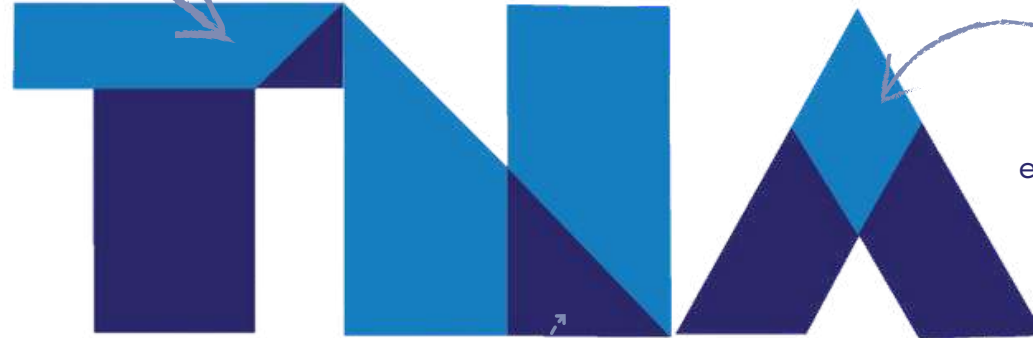

Our new identity stands for -

The forward arrow embodies our commitment to advancing into Vision 2030 and beyond.

The triangle symbolizes our embrace of continual change and dedication to economic and social responsibilities.

The rhombus elegantly encapsulates our core values of growth and durability.

Trust

Nurture

Achieve

Vision

To establish ourselves as the leading provider of engineering solutions for the diverse industries in Saudi Arabia. With a relentless focus on excellence and innovation, we are determined to deliver superior quality, cutting-edge technologies, and the highest level of customer satisfaction.

Mission

We are dedicated to utilizing our strengths, adopting a customer-centric approach, and guaranteeing punctual deliveries of our commitments.

Guiding

Principles

Philosophy

TNA is not just an acronym for our company; it embodies our core values of Trust, Nurture, and Achieve. We apply this philosophy internally to develop our employees and externally to enhance the success of our valued customers.

Core Values

Integrity: We prioritize honesty, transparency, and ethical principles in all our interactions and decisions.

Collaboration: We value teamwork, open communication, and diverse perspectives to achieve common goals with our partners and within our company.

Sustainability: We prioritize environmentally conscious practices, minimizing waste, conserving resources, and positively impacting the communities we serve.

CLIENTELE

Some of our hundreds of esteemed customers

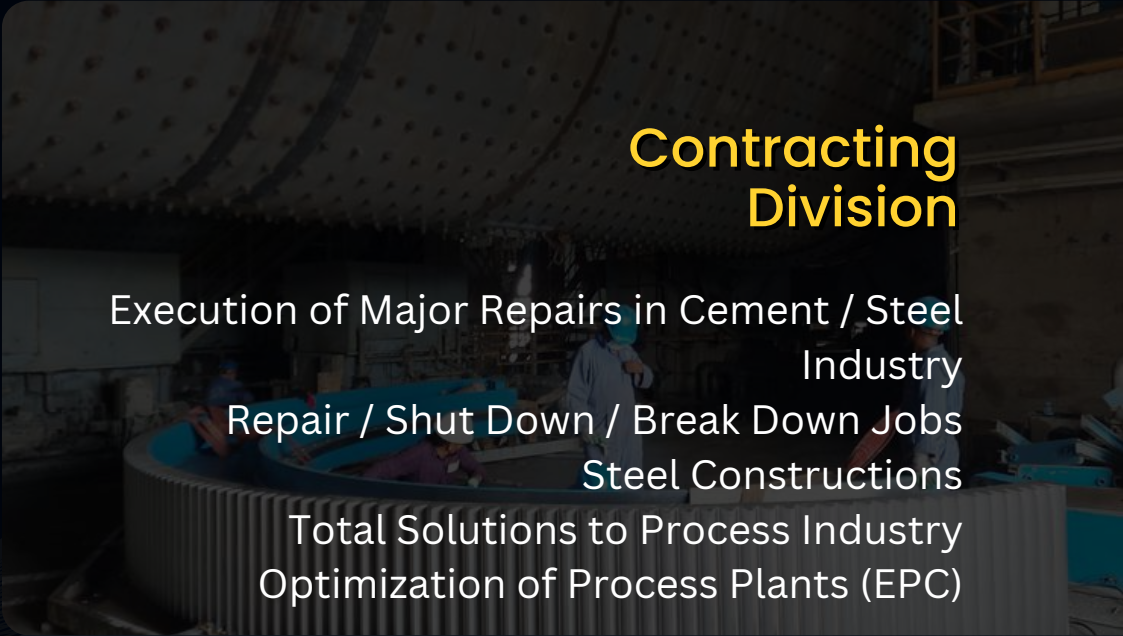

Products Division

Welding Consumables
Heat Treated Wear Resistant Plates
Weld Clad Wear Plates
Cold Repair Compounds
Air Blasters

Contracting Division

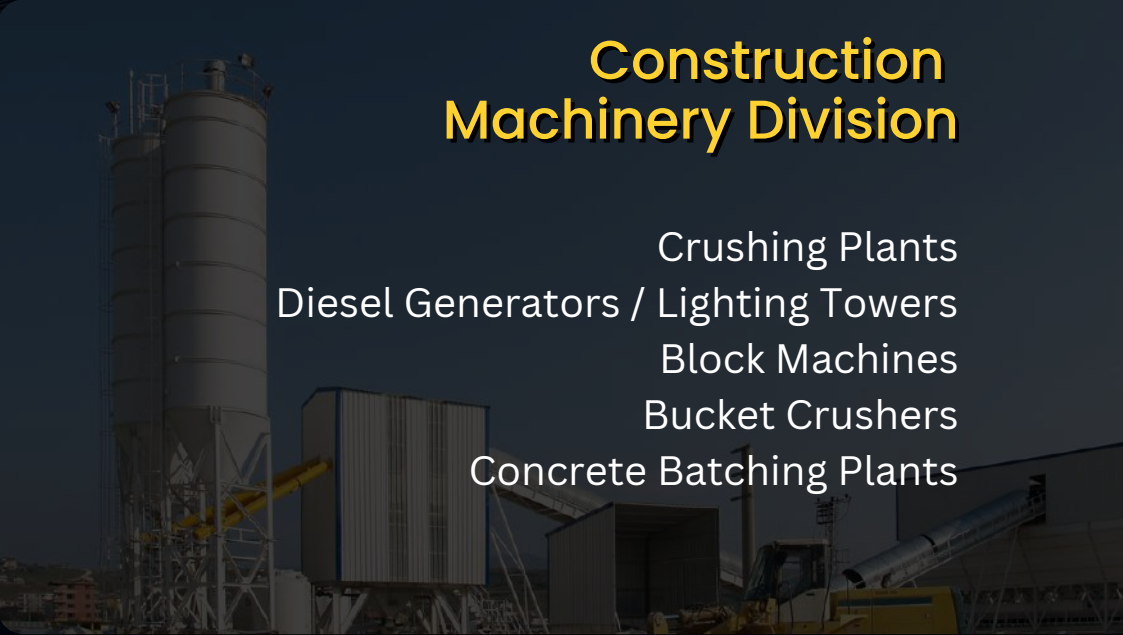

Execution of Major Repairs in Cement / Steel Industry
Repair / Shut Down / Break Down Jobs
Steel Constructions
Total Solutions to Process Industry
Optimization of Process Plants (EPC)

Fabrication & Welding Division

Crusher Components Repairs
Ducting / VRM Grit Cones/ Cyclones
Insitu M&R Repairs - Kiln Tyre/ ID Fans
Fabrication with Special Materials to Combat Wear
Concrete Mixer Liners with Weld Clad Plates

Construction Machinery Division

Crushing Plants
Diesel Generators / Lighting Towers
Block Machines
Bucket Crushers
Concrete Batching Plants

PRODUCTS

DILLINGER HUTTE

Proven track record of 330 years

DILLIDUR range of Abrasion Resistance Steels for the Construction Industry with high wear & tear of Earth Moving Equipment, Crushers & Mining Equipment, Cement, Concrete, and other industries.

DILLIMAX range is used for the load-bearing structures of construction machinery, Mechanical Structures, etc

DILLIDUR 400
DILLIDUR 500
DILLIDUR 650
Dillimax

DILLIMAX and **DILLIDUR** plates have been an established force in bearing ultra-high loads and resisting abrasive wear for the last half-century. Plate production potentials have evolved greatly since the market launch of these steels, and it is now possible to achieve ever higher mechanical strength and produce ever-thicker plates. The cleanness and toughness of quenched and tempered steel plates from Dillinger have been systematically further developed to meet maximum safety needs.

DILLIMAX –
*ideal for extreme
loads.*

PRODUCTS

VAUTID GROUP

Weld Clad Wear Plates

Vautid VVP 100
Vautid VVP 145
Vautid VVP 200

Together with our customers, we're working towards a challenging goal – a world without wear. VAUTID has already achieved numerous milestones along the way: Wear-protection welding electrodes, constant wear-protection flux-cored wire, and wear-resistant cast components are just a few of our standard-setting inventions.

PRODUCTS

CASTOLIN + EUTECTIC

Distributor Since 1982

Born in 1906, Castolin Eutectic is today a worldwide leading company in maintenance, surface protection, and special joining using welding, brazing, and coating technologies. We provide proven, value-added solutions to global industries using advanced material technology.

Xuper 680 S
NucleoTec
2222

YOUR BENEFITS:

- Work together with real experts in surface protection, repair, and joining
- Best possible know-how in using welding, brazing, and coating technologies
- Cost-effective and tailor-made solutions through a broad range of products and applications
- Keeping the production in-house, we are able to control the quality of every step in the production process

PRODUCTS

HENKEL ADHESIVES

Cold Repairs

LOCTITE® is one of the leading Henkel brands, a global leader in industrial adhesive solutions. LOCTITE® adhesive products are high-performance, engineered adhesive, sealant, and coating solutions for both industrial and commercial purposes.

LOCTITE COLD REPAIR COMPOUNDS

Protective coatings

Reduce the impact of abrasion and corrosion to keep equipment running and improve uptime with LOCTITE® protective coatings.

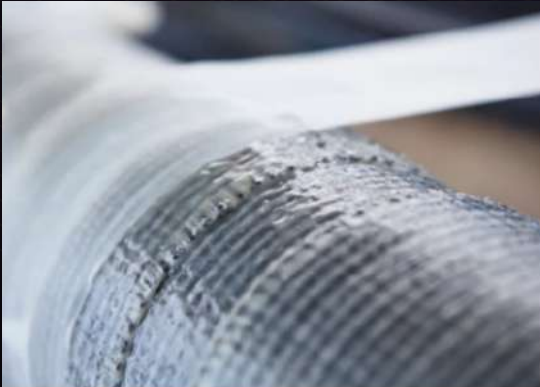

Concrete Repair Products

Heavy-duty concrete repair materials from Henkel help keep industrial operations running smoothly

Metal Rebuilding Materials

Quickly and efficiently repair and rebuild damaged metal parts

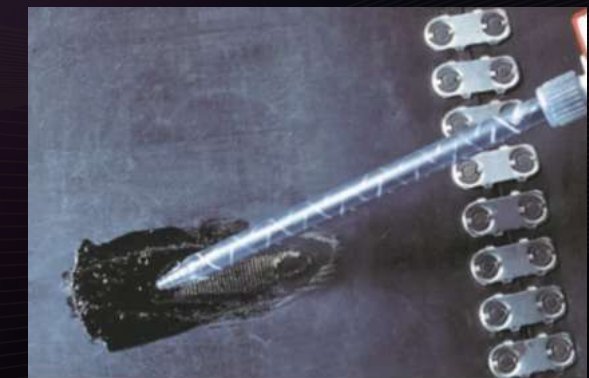

Composite Pipe Repair

Extend pipe lifetime with LOCTITE® composite repair materials

Repair Kits for Industrial Maintenance

Easy to use LOCTITE® repair kits and toolboxes for metal and stripped thread repairs

Rubber and Belt Repair

Durable, tough, and flexible repair material for conveyor belts and other damaged rubber equipment

PRODUCTS

METRODE

Distributor Since 1982

Metrode is particularly strong in those industries which require the highest integrity from their welding consumables, such as power generation, chemical and petrochemical, offshore oil and gas, and nuclear.

Product Range -

Manual Metal Arc Welding Electrodes (MMA/SMAW)
Solid & Cored Wires for Gas Shielded Welding (MIG/MAG/GMAW & FCAW),
Solid wires for Tig Welding (TIG/GTAW)
Wire Flux combinations for Submerged Arc Welding (SAW)

Categories -

Low Alloy Steels
Stainless Steels
High-Temperature alloys
Nickel Base Alloys
Repair and maintenance
Submerged arc welding fluxes

High temperature
Hardfacing
182 type
MnMo Low alloy
CrMo creep
resisting
Superduplex
Martensitic /
Austenitic
625 type
Dissimilar Steels
Cast Iron

PRODUCTS

MM OVERSEAS, INDIA

Air Blasters

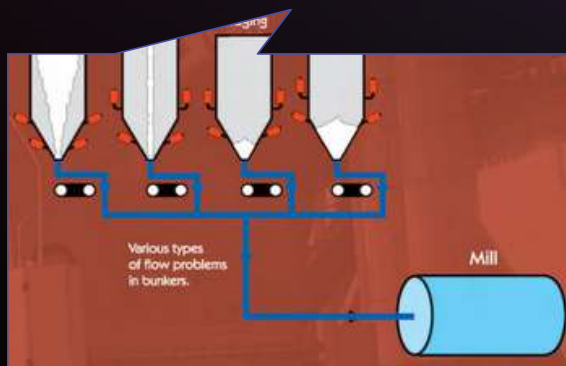

Established in 1987, the company has pioneered the art of making the highest quality AIR BLASTERS for Cement Factories. MMO has supplied and serviced Air Blasters across most of the countries in the world with an impeccable record of performance. The product range also comprises Heat Resistent Castings.

Air Blasters are solutions to the Jamming / Choking problem of the material that is transported through air medium.

Sudden but controlled release of compressed air thr' Air Blaster decongests and allows free flow in the ducts/silos/feed pipes/cyclones etc.

CONTRACTING

Reducing your shutdown time

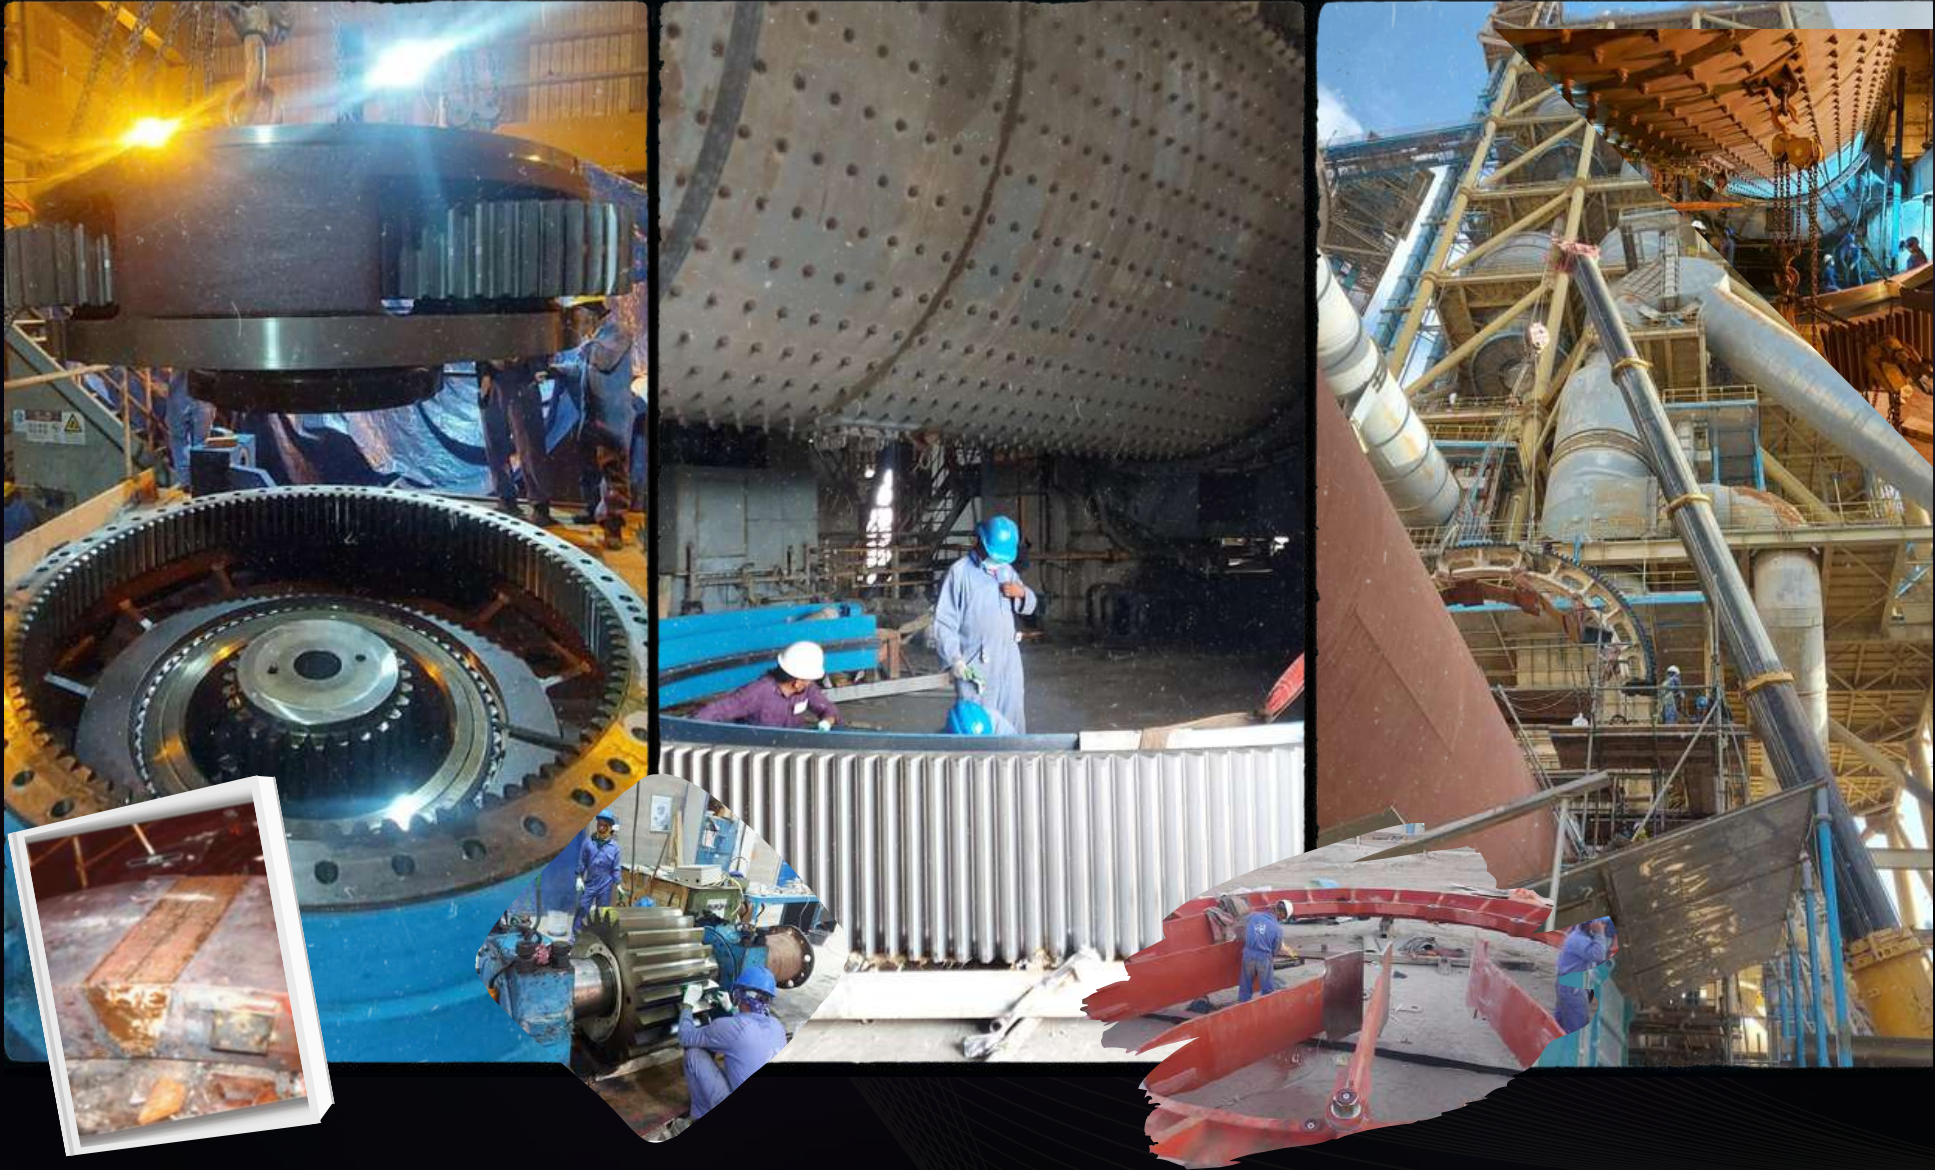

- **Maintenance Support Jobs in the Process industry for major as well as normal shutdown**
- **Emergency welding repairs to heavy components such as Kiln Tires, Supporting rollers, etc.**
- **Thermal spray coating for corrosion & wear protection etc.**

Major Repairs in Cement Industry

- Rotary Kilns.
- Cement mills.
- Pre-heaters.
- Grate coolers.
- Crusher Rotors, etc.
- Replacement/ modification of Ball Mill internals.
- Repair and recondition of components.
- Emergency repairs to heavy components such as Kiln Tire, Supporting roller, Roller press rolls, VRM Rollers, etc.

Major contracting jobs

Consultancy

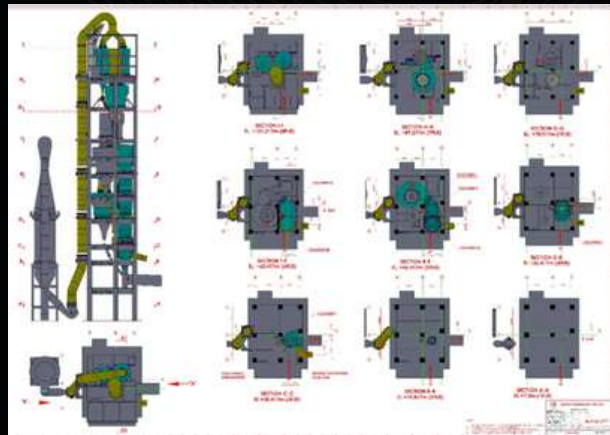

Layout engineering,
Process Engineering,
Rawmix design,
Detailed Engineering,
Erection & Commissioning
supervision services.

**Engg.
Consultancy &
Services**

Engineering Services

Plant Optimization
Plant Technical Audit
Tailor-Made Engineering
New Equipment Design

Spareparts

Crusher & Hammer
Vertical & Ball Mill
Preheater (Immersion Tube)
Filter Bags
etc

Maintenance

Of Cement Plant
Equipment such as
Ball Mill, Roller Mill,
Cooler, Kiln Feed
Housing, Conveying
System, Cyclones etc.

Castings for Cement and Steel industries

IMMERSION TUBES FOR CYCLONES

COMPONENTS FOR PELLETIZATION PLANTS

Alloy Steel Castings

Cement -
Cooler Plates,
Dip Tube Assemblies etc.
Steel -
Reformer tubes, Grate Bars, Spacer
Bars
Double / Single Deck Rollers
Chain Links etc.

Conveyor, Transmission Chains

For Cement and other industries

Bucket Elevator Chains

Scraper Reclaimer chains

Transportation Chains

Apron Feeder Chains

Diesel Generators

Spain

RENTAL RANGE | 50 HZ 1.500 R.P.M. / 60 HZ 1.800 R.P.M.

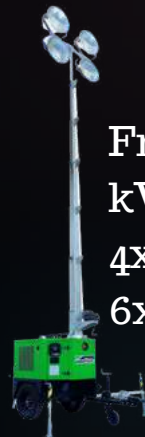

Powers: 8 kVA – 500 kVA

HEAVY-DUTY RANGE | 50 HZ 1.500 R.P.M. / 60 HZ 1.800 R.P.M.

Powers: 780 kVA – 2035 kVA

From 8 kVA to 35 kVA ; 60 Hz ;
4x1000 W to
6x1500 W lights

Bucket Crushers

UEDA Industries, Japan

From 0.35 to 0.9 Cu.M bucket capacity for
10 to 50 Ton Excavators

Block Plants – Mobile / Stationery

India

SIMPLE HANDLING/AUTOMATIC

- Automatic pallet feeder
- Automatic pallet stacker - Green product
- Product transfer to curing chamber by transfer car/forklift
- Cycle time 18secs
- Steel pallet size - 1200 x 700 x 14/45 wooden
- Synchronised vibration
- Max/min product height 200/25
- Automatic transfer car & nger car option
- U type of system to minimize area
- Green & Dry product handling
- Flying bucket concrete transfer system

Lower Thickness Wear Resistant Plates

CUT AND BENT KITS FOR
TIPPERS AND TRAILERS

WELDING & FABRICATION DIVISION

Maintenance & Repair jobs, both in-situ and in our workshop.

Fabrication, rebuilding, hard-facing jobs for various industries like Cement, Crushers, Readymix etc.
